

SERVICE RECORD

Oil Change - FIRST OIL CHANGE DUE AT 50 HOURS OF OPERATION

Every 100 hours: Always check the crankcase oil level prior to each use, or when the fuel tank is filled. Insufficient oil may cause severe damage to the engine. Make sure the generator is level when checking the oil level. The oil level must be between the two notches on the dipstick.

Oil Cartridge

Every 200 hours: Replace the engine oil filter cartridge after every 200 hours of operation.

Recommended Motor Oil

Below 32°F (0 °C)	SAE10 or SAE10W~30/ SAE10W-40
